Subject: RE: MSGP Applicability - Perley's Marina

Paul,
My apologies. I was out sick yesterday and am digging out from emails etc. due to vacation. What is your availability on Thursday or Friday?
Thanks,
Thelma

Thelma – you never responded to my meeting invitation request for a call yesterday (7/10/17) to discuss MSGP at Perley's Marina. Please let me know when you and I can discuss the permitting of Perley's Marina. Once again, the Perley's are eager to have AMEC resolve this stormwater permitting and planning matter in response to the US EPA's June 22, 2017 MSGP Applicability Determination Letter.

That will be great and thanks for responding. Perley's are eager to have us resolve this stormwater permitting and planning matter. I will schedule a call for 10 AM on the 10th. If that does not work for you, please provide alternative day and time.

Paul,
I've been out straight, sorry for the delay in responding.

I will be on vacation next week, but back on the 10th. Let's talk during that week.

Have a nice 4th.

Thelma

Subject: MSGP Applicability - Perley's Marina

Good Morning Thelma,

I received a copy of the US EPA's applicability determination letter for Perley's Marina dated June 22, 2017. EPA has determined that Perley's Marina is required to comply with the US EPA's 2015 MSGP due to stormwater discharge based on the modeling evidence provided by CLF and that AMEC's actual flow studies do not appear to be reliable indication of what is occurring at the site. Accordingly, the Perley's have asked AMEC Massachusetts, Inc. to support them with this permit coverage. However, prior to AMEC supporting the Perley's with this matter, we respectfully request a site meeting with you to assist us with the identification of the actual point source identified by CLF's model. Please note that we reviewed this model with CLF at the site during their site inspection and they could not identify/point out the location of the point source presented on their model. Specifically, we need support identifying the point source for the drainage area with industrial activities exposed to stormwater prior to seeking permit coverage. Please let me know when it would be a good time for you and I to meet at the facility to investigate modeled point source location and if you would like to have a call prior to going out to the site to discuss your June 22, 2017 letter.

Paul G. Richard, P.E.
